### 12h15 : Closings remarks / Cocktail

### Notes :

#### Case reports

Residents divided in 3 groups will attend one session – 1 or 2 speakers per group.

Ahead of the meeting, each speaker will supervise a group of 4 residents (at best one from each country) that will prepare and present a case report on the selected topic with two case reports per session. Short introduction and conclusion by the speakers with few slides if necessary. These sessions have to be highly interactive

#### Workshops

Residents divided in 3 groups will rotate every one hour to attend the 3 different workshops  
- One break after the second rotation – 1or 2 speakers per group.

The speaker will liven up the session and get high participation from the resident
