

LISTADO DE LAS BECAS ACR CONCEDIDAS EN 2016

NOMBRE	HOSPITAL	TÍTULO	ÁREA
Alicia Usategui	Hospital 12 de Octubre de Madrid	Human and experimental tracheal stenosis is characterized by a TGF- β -dependent fibrotic component	EAS
Andrea Montserrat Zacarias Crovato	Hospital Unviersitario de Bellvitge	Utility of Relative Cardiovascular Risk Score Scales and Vascular Age Predictors in Patients with Reumathoid Arthritis UNDER 50 YEARS of Age	Artritis Reumatoide
Andrea Montserrat Zacarias Crovato	Hospital Unviersitario de Bellvitge	Utility of Relative Cardiovascular Risk Score Scales in Patients UNDER the Age of 50 and Its Association with the Presence of Carotid Atherosclerosis in the Ultrasound	Artritis Reumatoide
Antonio González Martínez Pedrayo	Hospital Clinico Universitario de Santiago	Study of Two Biomarkers of Biological Age in the Blood of Patients with Rheumatoid Arthritis	Artritis Reumatoide
Antonio González Martínez Pedrayo	Hospital Clinico Universitario de Santiago	Increased Frequency of AntiDrug Antibodies in Patients Carrying Compatible IgG1 Allotypes and Treated with AntiTNF Antibodies	Artritis Reumatoide
Beatriz Tejera Segura	Hospital Universitario de Canarias	Incretin Effect in Non Diabetic Rheumatoid Arthritis Patients. Incretin Hormones in Non Diabetic Rheumatoid Arthritis Patients. Incretin Axis in Non Diabetic Rheumatoid Arthritis Patients	Artritis Reumatoide
Carlos Pérez Sánchez	IMIBIC, GC05	Integrated Analysis of Microrna and mRNA Expression Profiles Related to Cardiovascular Disease in Monocytes from Systemic Lupus Erythematosus and Primary Antiphospholipid Syndrome Patients	EAS
Carlos Pérez Sánchez	IMIBIC, GC05	Anti-Ds-DNA Antibodies Regulate Atherothrombosis in Systemic Lupus Erythematosus through the Induction of Netosis, the Prothrombotic and Proinflammatory Activities of Monocytes and the Endothelial Activation	EAS
Carlos Pérez Sánchez	IMIBIC, GC05	Dysregulation of the Splicing Machinery Components in Leukocytes from Patients with Systemic Lupus Erythematosus: Influence on Autoimmune and Atherothrombotic Mechanisms	EAS

Elena García Lorenzo	Hospital Universitario La Princesa	Both synthetic and biologic DMARDs can decrease titers of anti-anticitrullinated peptide antibodies in a seropositive early arthritis population in the routine practice	Artritis Reumatoide
Elena López Isac	Instituto de Parasitología y Biomedicina "Lopez-Neyra"	Combined-phenotype Meta-GWAS in Systemic Sclerosis and Rheumatoid Arthritis identifies IRF4 as a New common Susceptibility Locus	Artritis Reumatoide
F. David Carmona López *	Instituto de Parasitología y Biomedicina 'Lopez-Neyra' (CSIC)	New Insights into the Pathogenesis of Giant Cell Arteritis through a Genome-Wide Association Study	EAS
Fernanda Genre	Grupo de Epidemiología Genética. IDIVAL	Assessment of Serum Calprotectin and Osteoprotegerin Levels in a Cohort of Spanish Patients with Axial Spondyloarthritis	Espondiloartritis
Hirma Sánchez Pérez	Hospital Universitario de Canarias	Association Between Insuline Resistance, Subclinical Artherosclerosis and Activity/Damage Status in Systemic Lupus Erythematosus Patients	EAS
Hirma Sánchez Pérez	Hospital Universitario de Canarias	Characterization of Eye Sorcoidosis with or without Systemic Involvement: Application of Iwos Criteria in an Uveitis Unit	EAS
Ignacio Rego Pérez *	Instituto de Investigación Biomédica de A Coruña (INIBIC)	A Replication Study And Meta-analysis Demonstrate The Influence of The mtDNA Haplogroups In The Rate of Incident Knee Osteoarthritis. Functional Explanation of This Association Using Transmitochondrial Cybrids	Artrosis
Irene Llorente Cubas	Hospital Universitario La Princesa	Correlation Betw een Metacarpal Cortical Bone Mineral Density Measured By Dual X-Ray Densitom etry and Radiogram m etry on Early Arthritis Patients	Osteoporosis
Isabel de la Cámara Fernández	Hospital Universitario 12 de octubre	Clinical Characteristics of Inflammatory Myopathies Associated with Cancer: A report from the remican registry	EAS
Javier Martin Ibáñez	Instituto de Parasitología y Biomedicina López Neyra	A combined large scale meta-analysis identifies COG6 as a novel shared risk locus for rheumatoid arthritis and systemic lupus erythematosus	Genomica, Basica

Javier Rodríguez Carrio	Hospital Universitario Central de Asturias	Interaction Between Antibodies to Paraoxonase 1 and PON1 rs662 Polymorphism: New Clues to Understand HDL Dysfunction and Oxidative Stress in Rheumatoid Arthritis	Artritis Reumatoide
Javier Rodríguez Carrio	Hospital Universitario Central de Asturias	Non-Esterified Fatty Acids Are Associated with Clinical Features and Th1-skewed Response in Rheumatoid Arthritis: Towards Disease Profiling	Artritis Reumatoide
Jose Inciarte Mundo	Hospital Clinic de Barcelona	Calprotectin Serum Levels Strongly Predict Disease Flare in RA and PsA Patients with Low Disease Activity Treated with TNF Inhibitors. A One-Year Prospective Cohort Study	Artritis Reumatoide
José Miguel Senabre Gallego *	Hospital de Villajoyosa	Clinical Activity, Ultrasound Assessment and Drug Monitoring in Rheumatoid Arthritis Patients Receiving Anti-TNF- α Therapy with Extended Interval of Administration	Artritis Reumatoide
Jose Rosas Gómez de Salazar *	Hospital de Villajoyosa	In patients with ankylosing spondylitis treated with adalimumab, the combination therapy with DMARD, increased the serum level of adalimumab and decrease immunogenicity	Espondiloartritis
Jose Rosas Gómez de Salazar *	Hospital de Villajoyosa	EULAR primary Sjögren's syndrome disease activity index (ESSDAI), results from the National Registry of the Spanish Society of Rheumatology (SJÖGREN-SER)	EAS
Luis Rodríguez Rodríguez	Hospital Clínico San Carlos de Madrid	Temporal Trend of Total Joint Replacement in Rheumatoid Arthritis Patients: A Survival Study	Artritis Reumatoide
María García González	Hospital Universitario de Canarias	Diagnostic Value of Quantitative Sialoscintigraphy Compared to Labial Salivary Gland Biopsy in Patients with Suspected Sjögren' Syndrome	Imagen
Nuria Barbarroja Puerto	IMIBIC, GC05	Altered microRNA Expression Pattern in Synovial and Blood Neutrophils in Rheumatoid Arthritis Reveals the Pathogenic Profile of These Cells. Effect of Biological Therapies	Artritis Reumatoide
Nuria Barbarroja Puerto	IMIBIC, GC05	Effect of Systemic and Local Inflammation on the Insulin Resistance and Glucose/Lipid Metabolism in Rheumatoid Arthritis: Humans and CIA Mouse Model	Artritis Reumatoide
Patricia Ruiz Limón	IMIBIC, GC05	Micrnas As Potential Modulators of Atherothrombosis in Antiphospholipid Syndrome	EAS

Patricia Ruiz Limón	IMIBIC, GC05	TCZ Improves the ProAtherothrombotic Profile of Rheumatoid Arthritis Patients Modulating Endothelial Dysfunction, Netosis and Inflammation	Artritis Reumatoide
Rina Aicxa Molina Larios	Hospital Universitario 12 de octubre	CARDIAC INVOLVEMENT IN INFLAMMATORY MYOPATHIES: A REPORT FROM THE REMICAM REGISTRY	EAS
Rosario López Pedrera	IMIBIC-Reina Sofia Hospital-University of Cordoba	NetosisDerived Products Might Have Diagnostic Potential for Disease Activity, Atherosclerosis and Analysis of Therapeutic Effectiveness in Rheumatoid Arthritis Patients	Artritis Reumatoide
Rosario López Pedrera	IMIBIC-Reina Sofia Hospital-University of Cordoba	Dysregulation of the Splicing Machinery Components in Leukocytes from Patients with Systemic Lupus Erythematosus: Influence on Autoimmune and Atherothrombotic Mechanisms	EAS
Samantha Rodríguez Muguruza	Hospital Universitario Germans Trias i Pujol	Use of muscle biopsies for the diagnosis of systemic vasculitis in a rheumatology service	EAS
Sandra Chinchilla Gallo	Hospital Universitario de Cruces	Impact of an Educational Program for the Management of Gout Directed to Primary Care Physicians	Artritis Microcristalinas
Sandra Pérez Baos	Instituto de Investigación Sanitaria Fundación Jiménez Díaz (IIS-FJD)	Tofacitinib Restores The Inhibition Of Reverse Cholesterol Transport Induced By Inflammation: Understanding The Lipid Paradox	Artritis Reumatoide
Yolanda Jiménez Gómez	IMIBIC, GC05	Role of Immune System Cells and Induction of Netosis-Mediated Cell Death in the Development of Atherosclerosis in Ankylosing Spondylitis	Espondiloartritis
Yolanda Jiménez Gómez	IMIBIC, GC05	Plasma microRNA Expression Profiles in Ankylosing Spondylitis Patients	Espondiloartritis
Zulema Rosales Rosado	Hospital Universitario Clínico San Carlos	Adverse Drug Reactions due to Disease Modifying Drugs in patients with Rheumatoid Arthritis.	Artritis Reumatoide
Zulema Rosales Rosado	Hospital Universitario Clínico San Carlos	Survival of Disease-modifying Antirheumatic Drugs in Rheumatoid Arthritis	Artritis Reumatoide
Lucia Domínguez Casas	Hospital Universitario Marqués de Valdecilla	Adalimumab Versus Infliximab in Cystoid Macular Edema of Uveitis Associated to Behçet Disease. Multicenter Study of 34 Patients	EAS
Lucia Domínguez Casas	Hospital Universitario Marqués de Valdecilla	Comparison Between Carotid Plaque and Carotid IntimaMedia Thickness to Detect Subclinical Atherosclerosis in Rheumatoid Arthritis	Artritis Reumatoide

Lucia Domínguez Casas	Hospital Universitario Marqués de Valdecilla	Biologic Therapy in Severe Peripheral Ulcerative Keratitis (PUK). Multicenter Study of 27 Patients	EAS
Lucia Domínguez Casas	Hospital Universitario Marqués de Valdecilla	Tocilizumab in Refractory Uveitis Associated with Behçet's Disease. Multicenter Study of 11 Patients	EAS
Lucia Domínguez Casas	Hospital Universitario Marqués de Valdecilla	Comparison Between Carotid Ultrasonography and Coronary Artery Calcification Score to Detect Subclinical Atherosclerosis in Rheumatoid Arthritis	Artritis Reumatoide
Lucia Domínguez Casas	Hospital Universitario Marqués de Valdecilla	Vaccination Program to Prevent Hospital Admissions Due to Serious Respiratory Infections in Rheumatoid Arthritis Patients. Prospective Study of 294 Patients	Artritis Reumatoide
Beatriz Rodríguez Lozano	Hospital Universitario de Canarias	Association of Rheumatoid Arthritis Disease Activity and Clinical Profile with Chronic Periodontitis	Artritis Reumatoide
Beatriz Rodríguez Lozano	Hospital Universitario de Canarias	Rheumatoid Arthritis and Periodontitis: Association and Characteristics of Chronic Periodontitis	Artritis Reumatoide
Juan María Blanco Madrigal	Hospital Universitario de Basurto	Osteoporotic Fracture As the Main Risk Factor in the Detection of Osteoporosis in Men Under 70 Years	Osteoporosis
Catalina Gómez Arango	Hospital Universitario de Basurto	Adherence to Subcutaneous Biological Therapies Among Inflammatory Arthropaty Patients from a University Hospital	Espondiloartritis
Carlos Fernández Díaz	Hospital Universitario Marqués de Valdecilla	Optimization of Adalimumab on Refractory Uveitis of Behcet's Syndrome. Multicenter Study of 23 Patients	EAS
Carlos Fernández Díaz	Hospital Universitario Marqués de Valdecilla	Comparison Between IntimaMedia Thickness and Coronary Artery Tomography in Subclinical Atherosclerosis Detection in Rheumatoid Arthritis	Artritis Reumatoide
Carlos Fernández Díaz	Hospital Universitario Marqués de Valdecilla	Abatacept in Rheumatoid Arthritis with Interstitial Lung Disease: A Multicenter Study of 55 Patients	Artritis Reumatoide
Alba Quesada Moreno	Hospital Universitario de Salamanca	Progression of radiographic axial damage in patients with psoriatic arthritis. Relation with clinical and analytical factors	Espondiloartritis
Teresa Clavaguera Poch	Hospital Universitario Dr. Trueta de Girona	Diffuse Idiopathic Skeletal Hyperostosis: Can We Identify Different Clinicoradiological Patterns?	Artritis Reumatoide
Juan Carlos Ordoñez Ignacio	Hospital General Universitario de Alicante	New Cardiovascular Risk Factors Screening in Patients with Gout	Artritis Microcristalinas

Juan Carlos Ordoñez Ignacios	Hospital General Universitario de Alicante	OSTEOPOROSIS AND BREAST CANCER: Outcomes at a specialized osteoporosis clinic following a structured assessment	Osteoporosis
Elvira Vicens Bernabeu	Hospital Universitario y Politécnico la Fe de Valencia	AUTOANTIBODY RESPONSE TO TROVE2 IN SYSTEMIC LUPUS ERYTHEMATOSUS PATIENTS	EAS
M ^a del Carmen Bejerano Herrería	Hospitalario Universitario A Coruña (CHUAC)	Clinical Evaluation Usefulness of Standardized Protocol Strategies of Dose Reduction in Patients with Rheumatoid Arthritis in Clinical Remission Treated with Biologic Therapies. the Optibio Study Program	Artritis Reumatoide
Francisco Ortiz Sanjuán	Hospital Universitario y Politécnico La Fe	USEFULNESS OF THE EUSTAR PRELIMINARY CRITERIA FOR VERY EARLY SYSTEMIC SCLEROSIS AND LE ROY CRITERIA FOR EARLY-SYSTEMIC SCLEROSIS IN IDENTIFYING PATIENTS AT RISK OF DEVELOPMENT OF SYSTEMIC SCLEROSIS.	EAS
Roxana Coras	Hospital Universitario Vall'Hebrón	12/15-lipoxygenase inhibition by ML351 protects against uric acid crystal-induced acute arthritis in mice	Artritis Microcristalinas
Walter Alberto Sifuentes Giraldo	Hospital Universitario Ramón y Cajal	Predictors of Response to Methotrexate in Patients with Eosinophilic Fasciitis (Shulman's Disease)	EAS

(* Han renunciado a la beca en favor de sus compañeros/as)
