Congreso ACR San Diego 2017

Editorial

Queridos jóvenes, y no tan jóvenes, reumatólogos.

Aquí llega la edición de otoño de nuestra Newsletter, coincidiendo, como es habitual, con el congreso ACR 2017. Este año hemos sido un poco más ambiciosos que en otras ediciones otoñales y, además del repaso habitual por los abstracts becados por la SER y las mejores sesiones, según nuestra humilde opinión, hemos incluido una sección con los más interesantes del total de abstracts aceptados en ACR por temas. Para los escasos ratos libres que la ciencia nos permita, encontraréis en el interior información sobre qué visitar en San Diego y algunas fotos del último encuentro del grupo en Bilbao. Además, os ponemos al día sobre las ofertas educativas que puedan ser de vuestro interés en los próximos meses y alguna cosita más...

Esperamos que disfrutéis, tanto del congreso (si estáis entre los afortunados que podrán asistir), como de este número de nuestra Newsletter.

Agradeceríamos cualquier feedback, comentario, sugerencia o contribución para futuras ediciones.

Jovreum en la SER 2017

Jovreum (Jóvenes en Reumatología) es el grupo de especial interés de la SER para jóvenes profesionales trabajando en el ámbito de la Reumatología (reumatólogos, investigadores y otros profesionales relacionados). Buscamos crear una red que permita el intercambio de información, ideas y experiencias, así como fomentar necesidades específicas en ámbitos formativos, laborales, de investigación o colaborativos.

- The Quad Alehouse:

¡La comida durante el tour equivale a una cena!

Comentarios sobre los Abstracts y Sesiones

En las siguientes páginas, encontraréis nuestra selección de abstracts. Comentaros algunas cosas:

- Hemos tenido que abreviar algunos títulos por motivos de espacio
- La elección es subjetiva de acuerdo a cada colaborador/a.

¡Esperamos que os guste!

Estitxu Loza

Reumatóloga y epidemióloga. Realizó la residencia en el Hospital Clínico de San Carlos de Madrid tras lo que obtuvo un contrato post-MIR de investigación de 3 años. Durante este periodo rotó en el National Institute for Clinical and Health Excellence en Londres. Posteriormente trabajó en la Unidad de Investigación de la SER y actualmente es la directora médica del Instituto de Salud Musculoesquelética, en Madrid. Sus áreas de interés son la calidad asistencial y la investigación en servicios de salud asistencial en general.
