#summerschool_spain

Dear Colleagues,

On behalf of the Organizing Committee, I would like to personally welcome you coming from France, Germany, Italy, Portugal and Spain to the 2019 Summer School in Santiago. As in previous years, the focus of the scientific program will be on state of the art as well as new insights into basic science, clinical research and therapeutic interventions. We have planned lectures, and special workshops to favor the interaction and networking between speakers and the audience. We have attempted to replicate the spirit of previous meetings. I ask you to get engaged.

Before I close, I would like to thank each of the speakers for bringing their expertise to our meeting. We are lucky enough to gather together a great panel of speakers. Also, I would like to recognize the superb job done by the staff of the Spanish Society of Rheumatology, and the sponsorship of this event by Mylan. My personal respect and thanks go out to all.

Enjoy your participation in the 2019 European Summer School and have a memorable time visiting Santiago!
