

LISTADO DE AYUDAS CONCEDIDAS PARA ACUDIR AL CONGRESO ACR 2019 (ATLANTA, EE.UU.)

Nombre	Apellidos	Hospital	Provincia	Títulos abstracts
Iván	Arias de la Rosa	IMIBIC - Reina Sofía	Córdoba	3: Liver Dysfunction Associated with Rheumatoid Arthritis: Impact of Obesity and Effects of DMARDs in Hepatic Alterations / PDE4 Inhibition Could Improve Endothelial and Adipose Tissue Dysfunction Associated with Psoriatic Arthritis, Key Processes in Cardiovascular Disease / Complement Component 3 as Biomarker of Cardiometabolic Risk in Rheumatic Diseases: Rheumatoid Arthritis, Ankylosing Spondylitis, Psoriatic Arthritis and Systemic Lupus Erythematosus
Diego	Benavent Nuñez	Hospital Universitario La Paz	Madrid	2: Comparison Between Composite Activity Indices to Assess Clinical Response to Biological Therapy in Patients with Psoriatic Arthritis / Gender Influence on Treatment Effectiveness in Psoriatic Arthritis
Irene	Calabuig Sais	Hospital General Universitario de Alicante	Alicante	Carotid Atherosclerosis and Sonographic Signs of Urate Crystal Deposits in Patients with Gout: An Association Study
Mónica	Calderón Goercke	Hospital Universitario Marqués de Valdecilla	Santander	6: Tocilizumab in Aortitis: A Multicenter Study of 79 Patients / Tocilizumab in Giant Cell Arteritis: Route of Administration: Intravenous or Subcutaneous / Optimization of Tocilizumab Therapy in Giant Cell Arteritis: A Multicenter Real Life Study of 134 Patients / Response to Tocilizumab in Patients with Giant Cell Arteritis, According to Ischemic vs Systemic Symptoms / Tocilizumab in Giant Cell Arteritis: The Safest and Most Effective Initial Dose of Prednisone / Efficacy of Tocilizumab in Giant Cell Arteritis, Independent of the Time of Disease Evolution

Itziar	Calvo Zorrilla	Hospital Universitario Basurto	Bilbao	Frequency and Characteristics of Inflammatory Bowel Disease in Spondyloarthritis with Biological Therapy: Study of 270 Patients from the Same Center
Ivette	Casafont Solé	Hospital Germans Trías i Pujol	Barcelona	Adult-Onset Still's Disease Prognosis Score: Clinical Patterns, Complications and Biologic Treatment
Raul	Castellanos Moreira	Clínic de Barcelona	Barcelona	Interstitial Lung Disease Is Associated with Distinct Fine Specificities of Anti-Carbamylated Peptide/Protein Antibodies in Rheumatoid Arthritis
Rocío	Castro Viñuelas	INIBIC CHU A Coruña	A Coruña	Establishing an in Vitro Model of Hand Osteoarthritis by Generating Induced Pluripotent Stem Cells (iPSc) That Carry Single Nucleotide Polymorphisms Associated with Hand Osteoarthritis Risk
Elisa	Fernández Fernández	Hospital Universitario La Paz	Madrid	False Positives in the Ultrasound Diagnosis of Giant Cell Arteritis: Some Diseases Can Also Have Halo Sign
Eloi	Franco Trepát	IDIS - CHUS	Santiago C.	A Drug Repurposing Story: New Therapeutic Tools Ready to Block Innate Immune Responses in Osteoarthritis
Fernanda	Genre	IDIVAL	Santander	Vaspin rs35262691 Is Associated with Atherosclerotic Disease in Axial Spondyloarthritis Patients
Xavier	González Giménez	Hospital Universitario de Bellvitge	Barcelona	Hip Fracture Incidence in a Teaching Hospital: Intervention for the Prevention of Second Hip Fracture
Elena	Grau García	Hospital Universitario y Politécnico La Fe	Valencia	Frequency of Polyautoimmunity in a Tertiary Hospital
Martín	Greco Merino	Hospital Universitario de Gran Canaria Dr. Negrín	Las Palmas	Antisynthetase Syndromes: Correlation of Indirect Immunofluorescence Patterns with Diagnosis Criteria Fulfillment

Borja	Hernández Breijo	Hospital Universitario La Paz	Madrid	Changes in B Cell Profile as a Marker of Clinical Remission to TNF Inhibitors in Patients with Rheumatoid Arthritis
Lourdes	Ladehesa Pineda	IMIBIC - Reina Sofía	Córdoba	Association Between Radiographic Progression and Cardiovascular Risk in Spondyloarthritis: Data from CoSpaR REGISTRY
Ana	Lamuedra Garijo	IIS - FJD	Madrid	2: What Is the Pathogenic Meaning of Chondrocyte Hypertrophy in Osteoarthritis? Effect of Evc Deletion Through Hedgehog Signaling / Disorganization of Chondrocyte Columns in the Growth Plate During Experimental Osteoarthritis in Mice
Jesús	Loarce Martos	Hospital Universitario Ramón y Cajal	Madrid	Clinical Manifestations and Comparison of Subtypes of Juvenile Idiopathic Inflammatory Myopathies: Data from the REMICAM Registry
Pía Mercedes	Lois Bermejo	Hospital Universitario Clínico San Carlos	Madrid	Discontinuation of Disease Modifying Drugs in Patients with Incident Rheumatoid Arthritis
Rosario	López Pedrera	IMIBIC - Reina Sofía	Córdoba	5: Anti-phosphatidylserine/prothrombin Antibodies Confer a Distinctive Molecular Profile in Primary Antiphospholipid Syndrome Patients / Phenotype-based Clustering Along with Analysis of Molecular Profile Might Help to Define Precise CV-risk Profiles in RA Patients / Circulating MicroRNAs as Potential Biomarkers for Monitoring the Response to In Vivo Treatment with Rituximab in Systemic Lupus Erythematosus / Biomarkers Identified by Serum Inflammatory Profile Analysis to Predict Biologic Treatment Response in Rheumatoid Arthritis Patients / The Role of Alterations in the Splicing Machinery in the Pathogenesis of Lupus: Does It Impact Lupus Nephritis?
Carla	Marco Pascual	Hospital Universitario de Bellvitge	Barcelona	Applicability of FRAX in Clinical Practice: 10-year Results

Aránzazu	Mediero Muñoz	IIS - FJD	Madrid	2: Netrin-1 and Its Receptor Unc5B Mediates Tenofovir Induced Bone Loss and Dipyridamole, an Agent That Blocks Adenosine Transporter, Is Able to Modulate the Signal / Tenofovir Modulates Semaphorin 4D Signaling and Regulates Bone Homeostasis, Which Can Be Counteracted by Dipyridamole and Adenosine A2A Receptor
M ^a Eugenia	Miranda Carús	Hospital Universitario La Paz	Madrid	Treatment with Abatacept but Not with TNF Blockers, Is Associated with a Reduction of Constitutively Elevated Circulating Follicular Helper T Cells in Rheumatoid Arthritis
Juan	Molina Collada	Hospital General Universitario Gregorio Marañón	Madrid	Doppler in Entheses: A Potential Useful Outcome in Active Spondyloarthritis and Psoriatic Arthritis
Natividad	Oreiro Villar	INIBIC CHU A Coruña	A Coruña	Erosive Hand Osteoarthritis, Metabolic Syndrome and Knee Osteoarthritis: A Cross-sectional Study Using Data from the PROCOAC Cohort
Clara	Pérez Velásquez	Hospital Universitario Basurto	Bilbao	Multidisciplinary Unit of Psoriatic Arthritis: Clinical Results
Diana	Prieto Peña	Hospital Marqués de Valdecilla	Santander	6: Application of Different Sets of Classification/diagnostic Criteria for Polymyalgia Rheumatica: Single Center Study of 100 Patients / Influence of Steroid Treatment on 18F-FDG PET/CT Accuracy to Detect Vascular and Musculoskeletal Involvement in Patients with Polymyalgia Reumatica / Biological Therapy in Non Ischaemic Optic Neuritis Associated to Immune-mediated Inflammatory Diseases: Multicenter Study / Certolizumab Therapy in Patients with Uveitis During Pregnancy: Multicenter Study / Long-term Survival in Lung Transplantation and Allograft Rejection in Patients with Interstitial Lung Disease Related with Rheumatoid Arthritis: Study from a Single Referral Center / Real-world Comparative Study of Methotrexate vs Tocilizumab in Patients with Giant Cell Arteritis with Large Vessel Involvement

Sara	Remuzgo Martínez	IDIVAL	Santander	The Spectrum of Interstitial Lung Disease Associated with Autoimmune Diseases: Data of a 3-Year-Prospective Study from a Referral Center of Lung Transplantation
Miriam	Retuerto Guerrero	Hospital Universitario 12 de Octubre	Madrid	Polymyalgia Rheumatica: New Therapeutic Strategy Based on Low Dose Methotrexate Plus Local Infiltration with Corticosteroids
Sebastián de la Cruz	Rodríguez García	Hospital Clínic de Barcelona	Barcelona	3: Quantifying the Placebo Effect After Intra-Articular Injections: Implications for Trials and Practice / Rheumatic Immune-Related Adverse Events Associated with Treatment with Immune Checkpoint Inhibitors: A Multicenter Study of 38 Cases / Exposure to Avian and Fungal Antigens in Patients with Rheumatoid Arthritis-Associated Interstitial Lung Disease: Something to Keep in Mind
Luis	Rodríguez Rodríguez	Hospital Universitario Clínico San Carlos	Madrid	Predictors of Health-Related Quality of Life in Patients with Musculoskeletal Diseases: A Longitudinal Analysis from an Electronic Health Record Database
Zulema	Rosales Rosado	Hospital Universitario Clínico San Carlos	Madrid	Discontinuation of Disease Modifying Drugs Due to Inefficacy in Patients with Incident Rheumatoid Arthritis
Lara	Sánchez Bilbao	Hospital Marqués de Valdecilla	Santander	2: Ocular Scleral Pathology and Relationship with Autoimmune Diseases: Study of 101 Patients from a Single University Centre / Systemic and Ocular Sarcoidosis Study of 381 Patients from a Single University Centre in the Last 20 Years
Cristina	Sobrino Grande	Hospital Universitario Ramón y Cajal	Madrid	2: Diagnosis of Systemic Sclerosis: How and When / B Cell Profile for Early Identification of Optimal Responders to TNF-inhibitors in Rheumatoid Arthritis
José Luis	Tandaipán Jaime	Hospital Universitario Mútua de Terrassa	Barcelona	STING-associated Vasculopathy with Onset in Infancy (SAVI Syndrome) Can Mimic Juvenile Idiopathic Arthritis

Beatriz	Rocha Loureda	INIBIC CHU A Coruña	A Coruña	Identification of Distinct Lipidomic Profiles in Synovial Membranes from Inflammatory Arthritis by Mass Spectrometry Imaging
Mireia	López Corbeto	Univ. Vall d'Hebrón	Barcelona	Application of the Autoinflammatory Disease Activity Index (ADDI) to a Cohort of Patients in a Tertiary Hospital
Chamaida	Plasencia Rodríguez	Hospital Univ. La Paz	Madrid	Infliximab Serum Trough Levels Predict Non-clinical Response in Patients with Axial Spondyloarthritis
Morena	Scotece	INIBIC CHU A Coruña	A Coruña	Mitochondrial DNA Impact on Joint Degeneration Process Using DMM OA and Spontaneous Aging Conplastic Mice Models
