

Nombre	Apellidos	Hospital	Ciudad	Cargo	Formato	Título abstract
Martí	Aguilar i Coll	HU de Bellvitge	Barcelona	Adjunto	Póster	Interstitial Lung Disease in Rheumatoid Arthritis: Survival Analysis AcrossRadiological Patterns
Iago	Alcántara Álvarez	HU y Politécnico La Fe	Valencia	R4	Póster	Early axial spondyloarthritis: clinical characteristics and drug survival
Blanca	Alonso Palao	HU de Bellvitge	Barcelona	R4	Póster	Extraglandular manifestations in primary Sjögren's syndrome
Eva	Álvarez Andrés	HU 12 de Octubre	Madrid	Adjunta	Póster	Transition From Conventional to Minimally Invasive Minor Salivary Gland Biopsy in Rheumatology Practice: A
Juan Pablo	Baldívieso Achá	HRU de Málaga	Málaga	Adjunto	Póster	RITUXIMAB FOR INFLAMMATORY OCULAR DISEASE INRHEUMATOID ARTHRITIS: A SYSTEMATIC REVIEW OF CLINICAL OUTCOMES
Luis	Bausá Gimeno	HU Insular de Gran Canaria	Las Palmas	R4	Póster	(2) Predictors of Severe Infection and Exploratory Risk Stratification in Systemic Lupus Erythematosus and Primary Sjögren Syndrome // Serious infections in primary Sjögren syndrome and systemic lupus erythematosus: association with treatment exposure and disease group
Fabricio	Benavides Villanueva	MU Marqués de Valdecilla	Santander	Adjunto	Póster	(2) Predictors of Remission and Comparative Safety in ANCA Associated Vasculitis: Real World Analysis of Cyclophosphamide vs Rituximab // Real World Effectiveness and Safety of Upadacitinib in Giant Cell Arteritis
Montserrat	Bordoy Pastor	HU Son Espases	Palma	Adjunta	Póster	Clinical Characteristics, Outcomes, and Predictors of Progressive Pulmonary Fibrosis in Autoimmune-Associated Interstitial Lung Disease
Camille	Bourgeois	HGU Gregorio Marañón	Madrid	Adjunta	Póster	Risk of Cancer Associated with bDMARDs and tsDMARDs in Patients with Rheumatoid Arthritis and a History of Cancer: Insights from the ARCA Registry
Cristina	Calomarde Gómez	HU Germans Trías i Pujol	Barcelona	Adjunta	Póster	Long-term Real-World Outcomes of Double Targeted Therapy in RefractorySpondiloarthritis: A Multicenter Observational Study
Cristina	Calvo Sparks	HU Puerta de Hierro	Madrid	R3	Póster	Sjögren's Syndrome and Cutaneous Manifestations: A High-Risk Phenotype for Systemic Involvement
Daniel	Campos Martín	HU Donostia	San Sebastian	R4	Póster	(2) Real-world safety of baricitinib in rheumatoid arthritis: Incidence and predictors ofherpes zoster and cardiovascular events // Persistence and and optimization of baricitinib in rheumatoid arthritis in real-worldpractice: survival analysis, causes of discontinuation, and predictive factors
Karen	Carpio Astudillo	HU Clínico de Valladolid	Valladolid	Adjunta	Póster	Pulmonary Ultrasound Is a Useful Tool for Screening Interstitial Lung Disease Associated to Rheumatoid Arthritis
Irene	Carrión Barberá	Hospital del Mar	Barcelona	Adjunta	Póster	Multicenter Real-World Registry of Anifrolumab (ANIFRO-REU) in Systemic Lupus Erythematosus: Effectiveness in Patients with Articular and Cutaneous Manifestations with up to 12 Months of Follow-up
Clara	Churtichaga Domenech	HU Germans Trías i Pujol	Barcelona	R4	CO y poster	(2) Inadequate response to Denosumab: differences between patients with incidental fractures and/or bone loss during treatment//Idiopathic Granulomatous Mastitis: Clinical Characteristics, Management and Outcomes in Sigle-CenterCohort
Mónica	Cubells Ferrer	HU de Bellvitge	Barcelona	R4	Póster	Anti-ribosomal p antibodies in systemic lupus erythematosus are not associatedwith neurological manifestations: a cross-sectional cohort study
Laia	de Daniel Bisbe	HU de Bellvitge	Barcelona	Adjunto	Póster	Prevalence and risk factors of progressive pulmonary fibrosis in antisynthetase syndrome-associated interstitial lung disease according to the 2022 and 2024 criteria
Elena	De La Mata Pinilla	HU 12 de Octubre	Madrid	Adjunta	Póster	Perioperative Complement Inhibition with Eculizumab in High-Risk Antiphospholipid Syndrome: A Case Series
Iván	Del Bosque Granero	HU Ramón y Cajal	Madrid	Adjunto	Póster	Survival of biological therapy according to sex and HLA-B27 positivity in patients with spondyloarthritis
José María	Domenech Serrano	HU Doctor Balmis	Alicante	R4	Póster	Urate burden in type 2 diabetes across the cardio-kidney-metabolic (CKM) syndrome
Clara	Eyre Olmos	HU Parc Taulí	Barcelona	Adjunta	Póster	A Human Joint-on-a-Chip Platform Reveals Anti-inflammatory Effects of Cytokine-Rich Autologous Serum Derived from Patients with Rheumatoid Arthritis
Delia	Fernández Lozano	HCU de Valencia	Valencia	Adjunta	Póster	Prevalence and Clinical Associations of Rectal Prolapse in Patients with Systemic Sclerosis
Iván	Ferraz Amaro	HU de Canarias	Tenerife	Adjunto	Póster	Interleukin-2 Is Associated with Cytopenias in Systemic Lupus Erythematosus
Ligia Gabriela	Gabrie Rodríguez	HU Marqués de Valdecilla	Santander	R3	Póster	(6) Radiographic Severity Influences Intra-Articular Therapeutic Strategies in Osteoarthritis: A Real-WorldAnalysis of 832 Procedures//Effectiveness and Safety of Anifrolumab in Non-Systemic Cutaneous Lupus. Multicenter Study of 28 Patientsfrom Clinical Practice//Impact of an Integrated Primary Care-Rheumatology Referral Pathway on Diagnostic Delay in AxialSpondyloarthritis: Results from the EspAnde Project//Effectiveness and Safety of Janus Kinase Inhibitors in Refractory Takayasu Arteritis: A Multicenter CaucasianCohort and Systematic Literature Review//Data-Driven Phenotyping Identifies Six Distinct Clinical and Prognostic Patterns in ANCA-AssociatedVasculitis//Fourteen-Year Outcomes of an Integrated Rheumatology-Primary Care Musculoskeletal Unit: Effects onAccess to Care and Referral Patterns
Rafael	Galvez Sánchez	HU Marqués de Valdecilla	Santander	R4	Póster	(6) Clinical Phenotype of Thrombotic Antiphospholipid Patients Not Fulfilling the 2023 ACR/EULAR Criteria//DIAPS evolution among antiphospholipid antibody carriers: impact of serological profile, associated diseases and primary thromboprophylaxis// Impact of the 2023 ACR/EULAR Classification Criteria on Long-Term Outcomes in a Large Thrombotic Antiphospholipid Cohort//Refractory Disease and Therapeutic Escalation in Idiopathic Inflammatory Myopathies: Differences Across Clinical Subtypes from a 25-Year Real-World experience//Relationship Between Disease Activity, Organ Damage, and Functional Status in Systemic Lupus Erythematosus: Insights for Treat to Target Implementation in a Spanish Single Center Cohort//The endothelial activation and stress index (EASIX) predicts Clinical Progression to Antiphospholipid Syndrome in Antiphospholipid Antibody Carriers
Asier	García Alija	HU Santa Creu i Sant Pau	Barcelona	Adjunto	Póster	A Vision Transformer-based transfer learning approach to infer Metacarpophalangeal joint swelling from hand photographs in Rheumatoid Arthritis
Paula	García Escudero	HU Araba	Vitoria	Adjunta	Póster	Malignancies in a Spanish Cohort of Patients with VEXAS Syndrome
Guillermo	González Mozo de Rosales	HU de Basurto	Bilbao	R4	Póster	(2) Association of Urinary Proteomic Biomarkers with Disease Activity Parameters in Patients with Systemic Lupus Erythematosus and Lupus Nephritis // Deep Renal Response at 24 months in Lupus Nephritis
Raquel Ena Marín	Granados	HU Reina Sofía	Córdoba	Adjunta	Póster	MULTI-OMIC SIGNATURES IDENTIFY SEX-SPECIFIC CARDIOVASCULAR RISK ENDOTYPES IN RHEUMATOID ARTHRITIS
Sonia	Jiménez Barrios	HU Rio Ortega	Valladolid	Adjunta	Póster	Eosinophilic Fasciitis: Experience at a tertiary care center and favorable response to tocilizumab in sixrefractory cases
Manuel	Juárez García	HU La Paz	Madrid	Adjunto	CO y poster	(2) Artificial Intelligence, Rheumatologist, or Both? A Blinded Comparative Evaluation of Responses to PatientQuestions in Rheumatology//Can a Multidisciplinary Model Improve the Management of Complex IBD-SpA Cases? Insights fromGastroenterology–Rheumatology–Pharmacy Multidisciplinary Meetings
Carlos Mª	Lizasoain Alustiza	HU Donostia	San Sebastian	R3	Póster	Beyond Closing the Treatment Gap: Clinical and System-Level Determinants of Osteoporosis Treatment Initiation After Fragility Fracture in an Interhospital Fracture Liaison Service
Pedro José	Manuel Hernández	HGU Santa Lucía	Cartagena	R3	Póster	Osteoporosis Matters: Impact of Anti-osteoporotic Treatment on Mortality following Osteoporotic HipFracture
Adrián	Martín Gutiérrez	HU Marqués de Valdecilla	Santander	Adjunto	Póster	(5) Aortic Aneurysms In Patients With And Without Giant Cell Arteritis. A Clinical And Histopathological Study//Early Versus Delayed Tocilizumab in Giant Cell Arteritis: Exploring the Window of Opportunity//Incidence And Factors Associated With Serious Infections In Giant Cell Arteritis: Data From The ARTESERRegistry//Incidence And Predictors Of Major Adverse Cardiovascular Events In Giant Cell Arteritis: Data From TheARTESER Multicentre Registry//Previous Biologic Exposure Does Not Impact Anifrolumab Effectiveness or Safety: Real World Data from aNationwide Spanish SLE Cohort
Adrián	Mayo Juanatey	HU de la Ribera	Valencia	Adjunto	Póster	Anifrolumab in Systemic Lupus Erythematosus with severe hematologic manifestations: an international multicentre study
Sheila	Melchor Díaz	HU 12 de Octubre	Madrid	Adjunta	Póster	(2)Associations of salivary gland ultrasonographic findings with clinical features in primary Sjögren syndrome//May ultrasonography replace labial salivary gland biopsy and salivary gland flow rate assessment ?
Mª Eugenia	Miranda Carús	HU La Paz	Madrid	Adjunta	CO	Double-negative B-cell expansion predicts relapse in newly diagnosed giant cell arteritis
Natalia	Molina Esteban	HU 12 de Octubre	Madrid	Adjunta	Póster	(2)Myocardial Involvement In Idiopathic Inflammatory Myopathies//Clinicopathological Features of Systemic Sclerosis-Associated Myopathy: A Comparative Cohort Study withIdiopathic Inflammatory Myopathies

Felipe	Moreno Ramírez	HU de Navarra	Navarra	R4	Póster	(2)Sarilumab in Refractory and Glucocorticoid-Dependent Polymyalgia Rheumatica: Real-World Outcomes from a Multicenter Spanish Cohort and comparison with SAPHYR trial//Is Image Remission By 18F-FDG PET/CT Possible In Patients With Giant Cell Arteritis?: Importance of Delayed Imaging.
Laura	Muñoz Llopis	HU Marqués de Valdecilla	Santander	R3	Póster	(3) Baricitinib in rheumatoid arthritis-associated interstitial lung disease: a national multicenter study of 84 patients//Cervical Cytological Findings and Human Papillomavirus Infection in Systemic Lupus Erythematosus: Frequency and Impact of a Treat to Target (T2T) Strategy in a Spanish Single Center Cohort//Epidemiology of adult-onset still's disease in northern spain: a 24-year population-based study
Pablo	Muñoz Martínez	HU y Politécnico La Fe	Valencia	Adjunto	Póster	Baseline and early longitudinal serum biomarkers in Polymyalgia Rheumatica: kinetics and associations with clinical course
Jorge	Muñoz Serrano	HU Príncipe de Asturias	Madrid	R3	Póster	Lipoprotein(a) Identifies an Atherogenic Cardiovascular Profile Independent of Disease Activity in Psoriatic Arthritis: External Validation of the CARMA Cohort
Adrián	Navarro Sánchez	HU Ramón y Cajal	Madrid	R3	Póster	Ultrasound-assessed enthesitis and disease severity in SAPHO syndrome
Cristina	Oramas Marco	HU de Canarias	Sta Cruz de Tene	Adjunta	Póster	Long-Term Persistence, Effectiveness and Safety of Filgotinib in Rheumatoid Arthritis: A Multicenter Real-World Study from Three Spanish Cohorts
Pilar	Ortiz Lavín	HU Marqués de Valdecilla	Santander	R3	Póster	(5)Comparative Effectiveness of JAK Inhibitors Versus Abatacept in Rheumatoid Arthritis-Associated InterstitialLung Disease: A National Multicenter Cohort of 667 Patients//Correlation Between Cumulative Glucocorticoid Dose and Glucocorticoid Toxicity Index in Giant CellArteritis: A Real-World Longitudinal Study//Effect of Nintedanib Associated to Abatacept in Rheumatoid Arthritis-Associated Interstitial Lung Disease.National Multicenter Study of 526 Patients//Upadacitinib in Rheumatoid Arthritis-Associated Interstitial Lung Disease: Real-World Effectiveness andSafety from a National Multicenter Cohort//Women Experience Greater Glucocorticoid Toxicity Despite Similar Exposure in Giant Cell Arteritis
Elisabet	Perea Martínez	HGU Dr. Balmis	Alicante	Adjunta	Póster	Hypogammaglobulinemia in Patients With Inflammatory Rheumatic Diseases Treated With IL-6 Receptor Inhibitors: A Retrospective Comparative Cohort Study //
Andrés	Pérez Hurtado	HU y Politécnico La Fe	Valencia	R3	Póster	Study Of Neuropeptides In Rheumatoid Arthritis And Their Role In The Inflammatory Response
Pablo	Riesgo Sanchis	HU Doctor Balmis	Alicante	R4	Póster	Do Women Experience the Same Clinical Symptoms of Gout?": A Systematic Literature Review
José Andrés	Rodríguez Fernández	HGU Santa Lucia	Cartagena	R3	Póster	Management of anti-TNF therapy in patients with leishmaniasis: is it necessary to suspend biologicaltreatment?
Mar	Rodríguez Ramírez	HU Ramón y Cajal	Madrid	R4	Póster	Factors associated with initiation of conventional and biological/targeted synthetic DMARDs in SAPHO síndrome. Results from SAPHO-SPAIN registry
Olga	Rusinovich Lovgach	HU Puerta de Hierro	Madrid	Adjunto	CO y poster	(2) Distinct Factors Associated with Patient-Reported Symptom Burden and Systemic Disease Activity in Sjögren's Disease //CO: Progression of Systemic Activity, Organ Damage, and Symptom Burden in Sjögren's Disease: Results from the Prospective Multicenter SjögrenSER-PROS Registry
Juan Camilo	Sarmiento Monroy	HU Clínic de Barcelona	Barcelona	Adjunto	Póster	Prescription Patterns, Safety, and Drug Survival of Targeted Therapies in Patients with Rheumatoid Arthritis-Associated Interstitial Lung Disease: Data from the BIOBADASER Registry
Carmen	Secada Gómez	HU Marqués de Valdecilla	Santander	Adjunta	Póster	(6) Can cluster analysis redefine phenotypes in giant cell arteritis? Data from the ARTESER registry//Early Versus Late Anifrolumab Initiation in SLE: Real World Effectiveness and Glucocorticoid SparingOutcomes//Effectiveness and safety of biosimilar tocilizumab in patients with giant cell arteritis who previously werereceiving the original tocilizumab. Real-world clinical practice//Precision Phenotyping of Aortitis: A Cluster Based Study from a Referral Vasculitis Clinic//Real-world effectiveness of Bimekizumab in refractory uveitis associated with spondyloarthritis: amulticenter study//Real-World Impact of Anifrolumab in Systemic Lupus Erythematosus: Insights from a Nationwide SpanishMulticenter Registry
José Miguel	Sequí Sabater	HU de la Ribera	Valencia	Adjunto	Póster	INFLAMMATORY SERUM PROTEOMIC SIGNATURE INPRIMARY SJÖGREN'S DISEASE IDENTIFIES SHARED CLINICAL ENDOTYPES INSYSTEMIC LUPUS ERYTHEMATOSUS: RESULTS FROM THE BISCIONE SJD COHORT
Leire	Suárez Zorrilla	HU de Cruces	Vizcaya	R3	Póster	(3) Autoimmune Manifestations After Parvovirus B19 Infection: A Clinical Observational Study// Clinical Manifestations and Autoimmune Findings during Parvovirus B19 Infection in Children and Adolescents in a Pediatric Care Setting// Prevalence and Factors Associated with Crowned Dens and Crowned Dens Syndrome in Patients with Calcium Pyrophosphate Arthritis
Alba Mª	Torrat Novès	HU y Politécnico La Fe	Valencia	Adjunta	Póster	Subclinical inflammation in patients with Familial Mediterranean Fever with well-controlled disease
Esther	Vicente Rabaneda	HU de la Princesa	Madrid	Adjunta	Póster	Subclinical Inflammation by Power Doppler Ultrasound in Rheumatoid Arthritis in Recent Clinical Remission: Baseline Analysis of a Prospective Cohort
Judith	Vidal Ripoll	HU Germans Trias i Pujol	Barcelona	R4	Póster	Unsuspected Extrapulmonary Involvement Detected by PET/CT in Newly Diagnosed Sarcoidosis
José María	Viotti Serra	HU de Canarias	Tenerife	Adjunto	Póster	ULTRASENSITIVE QUANTIFICATION REVEALS HIGHER SERUM INTERFERON-A AND INTERFERON- f LEVELS ASSOCIATE WITH REDUCED LEUKOCYTE AND LYMPHOCYTE COUNTS IN SYSTEMIC LUPUS ERYTHEMATOSUS
Raquel	Zas Vaamonde	HU 12 de Octubre	Madrid	Adjunta	Póster	Humoral responses to recombinant varicella-zoster virus vaccine in patients withchronic arthritis starting JAK inhibitor therapy
